COMMANDKEYBOARD UK

KVM add-ons, Article number A3200114

The CommandKeyboard combines a standard keyboard in various international layouts with additional programmable keys. The programmable keys can be assigned with any macros using dedicated software. The product behaves like a standard keyboard that is compatible with all standard devices with keyboard support. The operation of KVM products is therefore possible as well. The macros that can be stored on the programmable keys are stored directly in the keyboard's memory. No special driver software or similar is required for operation (apart from programming the keys). The dedicated software enables you to create any configuration for the programmable keys.

DETAILS

DEVICE

- Designed to increase user efficiency and reduce user error.
- Enhancing the standard keyboard layout with 40 dedicated keys gives users direct access to application- and task-specific functions that are often hidden in multiple menu levels.
- Built on a proven platform using the Cherry® MX key switch the CommandKeyboard provides a highly tactile and ergonomic user interface ideally suited to demanding professional users.

FEATURES

OPERATION

- 50 million operations
- 55g actuation force
- 4mm full travel

TECHNICAL DATA

General	Brand	Panoptec
	Product group	KVM add-ons
	Product Family	CommandKeyboard
	Country of origin	United Kingdom
Input options	USB keyboard	yes
Housing	Width ca.	470 mm / 18.50 in
	Height ca.	44 mm / 1.73 in
	Depth ca.	220 mm / 8.66 in
Operating conditions	Operating environment temperature	0 °C to 50 °C / 32 °F to 122 °F
	Area of application	Indoor use
	Storage environment temperature	-10 °C to 60 °C / 14 °F to 140 °F
	Conformities	CE compliant (see downloads) FCC compliant (see manual) RoHS compliant (see downloads)
